Supplemental Type Certificate

Number SA02511SE

This certificate, issued to

CiES Inc.
1375 SE Wilson Ave, Suite 150
Bend, OR 97702

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part * of the * Regulations.

Original Product—Type Certificate Number:

* See attached Federal Aviation Administration (FAA)

Make:

Approved Model List (AML) SA02511SE for approved

Model:

aircraft models and applicable airworthiness regulations

Description of the Type Design Change: Installation of replacement fuel quantity indicator sending unit(s) on aircraft models listed in AML SA02511SE, original issue date March 14, 2017, or later FAA-approved revision, in accordance with the CiES Inc., Master Drawing List and the CiES Inc., Installation Requirements & Instructions for Continued Airworthiness (ICA) documents as listed on that AML, or later FAA approved revisions.

Limitations and Conditions: Approval of this change in type design applies only to the aircraft listed on AML SA02511SE. Aircraft on which this type design change is installed must be maintained in accordance with the CiES Inc., Installation Requirements & ICA document as listed on AML SA02511SE, or later FAA-approved revision. There is no change to the operating instructions for the aircraft associated with installation of this STC. This approval should not be installed on aircraft of the approved models on which other previously approved modifications are incorporated unless it is determined by the installer that the relationship between this change and other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this certificate, AML SA02511SE, and the ICA must be maintained as part of the permanent records for the modified aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: June 16, 2016

Date reissued:

Date of issuance: March 14, 2017

Date amended:

By direction of the Administrator

Mr. Scott Philiben
1375 SE Wilson Ave. Suite 150
Bend, OR 97702

Dear Mr. Philiben:

We have completed our evaluation of the request for amendment of Approved Model List (AML) Supplemental Type Certificate (STC) SA02511SE, for the addition of the Cessna 208 factory instrument to the list of approved instruments. We find that you have satisfactorily demonstrated compliance with the applicable certification regulations. Accordingly, we have enclosed AML SA02511SE, amended on October 29, 2020, for the installation in accordance with Master Drawing List CC2840 00 03 Revision Q and STC Installation Instructions and Instructions for Continued Airworthiness CC-TR-2840-031 Revision F, as listed on the AML, or later Federal Aviation Administration (FAA) approved revision.

This STC is official Federal Aviation Administration (FAA) approval for your installation and may be used to authorize identical installations on other aircraft of the same model. It may be transferred or otherwise made available to another party by means of a licensee arrangement in accordance with Title 14 Code of Federal Regulations (CFR) section (§) 21.47. You are required to advise this office prior to the transfer, when you transfer or grant licensee rights to the STC, in order that we may take the necessary recording or reissuance action.

If you agree to permit another person to use this STC to alter the product, it is your responsibility to give the other person written evidence of that permission in the form of a "permission statement." This permission statement should contain the agreement specifying the product to be altered, the STC number, and the person who is being given the consent to use the STC.

As recipient of this approval, except as provided in § 21.3(d), you are required to report any failure, malfunction, or defect in any product or article manufactured by you that you have determined has resulted or could result in any of the occurrences listed in § 21.3(c). The report should be communicated initially by telephone to the Manager, Propulsion Section, AIR-784, telephone number (206) 231-3500, within 24 hours after it has been determined that the failure has occurred. In addition, written notification to the Manager, Seattle ACO Branch, AIR-780, at the above address is required. FAA Form 8010-4 (Malfunction or

Defect Report) or any other appropriate format is acceptable in transmitting the required details.

If you plan to manufacture replacement or modification articles for sale in conformance with approved data listed on the certificate, a parts manufacturer approval (PMA) may be applied for under the provisions of § 21.303 and issued after establishing compliance with § 21.307 and § 21.308. The identification requirements for articles produced under a PMA are in § 45.15. Your application may be in letter form, with reference to the STC number, and should be addressed to the Federal Aviation Administration, Northwest Mountain Region, Attention: Manager, Seattle MIDO Section, 2200 S. 216th Street, Des Moines, WA 98198-6547.

Since I am very much interested in the service we provide to the aviation community and the public, it would be helpful if you would provide your thoughts and comments regarding how the approval process went. To gather this information, we have provided this letter and its enclosures electronically and attached a short survey that I hope you will fill out and return via e-mail as indicated on the survey. Please make the subject line of the return e-mail read "Survey" to ensure proper receipt. You may rest assured that your comments will receive my full attention and that I will hold your comments in strict confidence, should you request I do so. Please note that this stakeholder survey is common to all Aircraft Certification offices within the FAA's Aircraft Certification Service and is aimed at enabling the Aircraft Certification Service to deliver the best services to each of our stakeholders.

Sincerely,

For Ian Won
Aviation Safety
Manager, Seattle ACO Branch
